To the representatives from C.N.:

The future plans you have using the rail service that will pass through the City of Barrington should without doubt include major changes including either raising the tracks above ground or lowering them below ground level, so as to have no effect on the present travel time needed to move necessary automobile traffic through the city without delay!!

Other than the above, you are welcome to this area and good luck with your future business efforts.

My responsibility as Police and Fire Commissioner in Barrington is to care for the welfare of our children who will now be faced with traffic safety issues they have never faced before you appeared on the scene!!!

What scoping meeting did you attend? (Please circle): Mundelein, Barrington, Joliet, Matteson, Gary, West Chicago, Chicago.
